

Re: Docket# 98N-1038, "Irradiation in the Production, Processing, and Handling of Food."

I want the FDA to continue prominent labeling of food that has been treated with irradiation. The label should be conspicuous and include the logo for irradiation.

Your Signature: _____

Johnny Martel

Additional comments: It would be a crime if
the food I buy did not have to be labeled
for any ~~the~~ shelf-life extending processes that
were done to it.
